Dear Sir,

I am a formally trained Web Developer with a successful internship experience and a strong background in Web Development. I am interested in joining your company's IT department as a Web Developer.

As a recent graduate with a Bachelor of Science in Information Technology, I have gained valuable experience through internships and school projects. During my internship at ZionLab IT Consultancy, I developed proficiency in creating websites using WordPress, as well as utilizing HTML, CSS, PHP, and Bootstrap for Front-End Development.

I believe that my skills and experiences have equipped me well for this opportunity with your company. For further details regarding my previous experience and skills, please refer to the attached resume.

I am available for an interview at your convenience. Feel free to reach out to me anytime. Thank you for considering my application.

Sincerely,

Alleah Wil T. Lomantas
